

Making your Blackboard course "Available" to students

Every semester courses are set to "UNAVAILABLE" by default. Therefore the course will not appear on the student's list of available courses, unless the course is set to "Available" by the Instructor.

Follow these steps to make your course "AVAILABLE":

1. Go to the Control Panel of the unavailable course
2. In the Course Options area click the "Settings link"
3. Click "Course Availability"
4. Select "Yes Make Course Available"
5. Click the "Submit" button
