PEBTF

NEW PRESCRIPTION DRUG PLAN GOES INTO EFFECT ON 7/1/05

PEBTF members will begin receiving their Medco Welcome Packets this weekend through 6/24/05. Medco is releasing ID cards nightly.

Members should watch for their Welcome Packet which is being mailed in a 6 X 9 envelope, and it will include the statement:

IMPORTANT – YOUR PRESCRIPTION DRUG BENEFIT MATERIALS ARE INSIDE

The Welcome Packet contains the following:

- Prescription Drug ID Card
- Welcome Letter
- Drug Plan Summary Brochure
- Preferred Drug List
- Medco by Mail Order Form & Mail Order Envelope
- Health, Allergy & Medication Questionnaire
- Form to Transfer Your Refill Prescription

There is no change to the Prescription Drug Plan and no change in copayments.

Members may continue to fill up to 30-day supplies at a retail pharmacy and use mail order or Rite Aid for their 90-day supplies.

New ID Number

The Medco ID card now lists a unique PEBTF ID number instead of the member's Social Security Number. The member should present the ID card at the pharmacy because the pharmacy will need the new number to process the prescription.

Refills Remaining at Mail Order

Members may continue to fill their mail order prescriptions at CFI until 9 p.m. on June 30, 2005. After that date, Medco Mail Order will fill members' 90-day prescriptions. Express Scripts is transferring all of the remaining mail order refills to Medco so there should be no need for a member to obtain a new prescription from their doctor.

Walgreens, Wal-Mart Pharmacies

Walgreens, Wal-Mart, Sam's Club and HyperMart Pharmacies do not participate in the network. Information on this was included in the Welcome letter and brochure and a targeted mailing is being sent to members who previously used one of these pharmacies.

Members may contact Medco toll-free at **800-899-2674** or log on to the web site at www.medco.com for a list of participating pharmacies. Most chains and independent pharmacies participate in the Medco network.
