

Environmental Health Minor Curriculum Guide & Advising Sheet (18 credit hours)

The Environmental Health minor provides students in a wide range of majors an opportunity to learn more about how the environment affects human health and how to protect people from environmental hazards. Students can use this knowledge in their daily lives and apply this knowledge to the practice of their major field of interest. Concepts and skills learned in these courses can enhance one's professional career.

A minor in Environmental Health requires students to complete three core courses as well as three elective courses from the selections that follow. A grade of C- or better is required in these courses before clearance for graduation with a minor in Environmental Health will be granted.

Procedures for Declaring an Environmental Health Minor

1. Students who want to minor in Environmental Health must complete an Application for Minor form.
2. Consult with your major advisor and department chairperson. Obtain approval and signatures on the form.
3. Take the Application for Minor form to Dr. Roger Mustalish, H207 for his signature.
4. Submit the completed Application for Minor form to the Office of the Registrar (Bull Center).
5. When you initiate graduation clearance, the Registrar contacts the Dept of Health for your minor clearance.

USE THIS FORM TO KEEP TRACK OF YOUR PROGRESS

Note for comment column: F=course offered only in Fall, S=only offered in Spring,

E =only even years, O=only odd years, M = summer; X = no pattern & as enrollment needs require

Category	Comment/Prerequisites	Course#	Course Title	Credits	Semester Taken	Grade Earned
Core	Jointly satisfies "I" should be the first course in sequence	ENV 102*	Humans & the Environment	3		
Total of 9 credits	no pre-requisites
