

# Educate for Equality

**November 16<sup>th</sup> - November 19<sup>th</sup> 2009**

*Educate for Equality* is a program that has been created to bring increased awareness and education about diversity to the campus of West Chester University. The week will consist of separate events occurring each day which deal with a different population of students, focusing on the diversity that exists among our campus. Through the implementation of guest speakers; presentations; a documentary showing; panel discussions; a photo exhibit; and themed events, we hope to reach a vast population of students who share diverse backgrounds and experiences.
