

ProQuest Pivot now supports Shibboleth single sign on

What is Shibboleth?

Shibboleth is the world's most widely deployed federated identity solutions. It provides Single Sign-On capabilities which helps connect users to systems both within and between organizations.

The biggest benefit for your users is, it is one less password to remember. No more trying to remember a specific pivot username and password. With Shibboleth in Pivot users are now able to use the same credentials they use throughout their institution.

How To Set Up my Shibboleth account

Step 1: Login to your Pivot account

Pivot provides three login options:

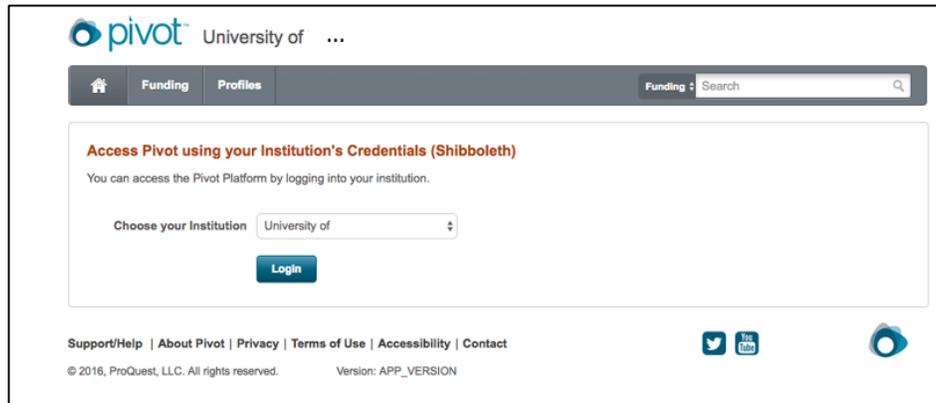

1. Enter user name and password
2. Sign up for an account
3. Access via My Institution Login (AKA Shibboleth)

On the left, there is a navigation menu with three main sections: 'FUNDING OPPORTUNITIES' (with a globe icon), 'PRE-POPULATED SCHOLAR PROFILES' (with a person icon), and 'COLLABORATIVE WORK FLOW' (with a group of people icon). Each section has a brief description and bullet points. In the center, there is a photograph of three people (two men and one woman) looking at a laptop. On the right side of the screenshot, a 'Login' form is overlaid, featuring fields for 'Username' and 'Password', a 'Forgot Password?' link, a 'Help' link, and a 'Login or signup' button. Below the button is a link for 'Access via My Institution Login'. At the bottom of the screenshot, there is a text box that reads: 'Intelligent Mapping Tools leverage expertise to propel research uniquely targeted to your organization.'
