RELIGIOUS LIFE DIRECTORY

compiled and published by

The Religious Life Council
and the
Division of Student Affairs

West Chester University

Revised September, 2016
INTRODUCTION

West Chester University's Religious Life Council was formed to help meet the spiritual needs of students through a cooperative working relationship between religious organizations and the University. The mission of the group is based on the belief that a student's spiritual life is an important aspect of overall intellectual and personal development.

The council, comprised of representatives from campus religious student organizations, representatives from community denominations serving WCU students, and University administrators, coordinates a variety of functions. The goals of the council are as follows:

• To develop a communications network between the University and religious organizations for the purpose of sharing information about services and programs;

• To develop a comprehensive program to acquaint students with religious organizations on the campus and in the community, and

• To serve as a resource group for the University on matters of a religious nature.

In an effort to acquaint the University community with the many and varied religious services and programs offered both on and off campus, the Religious Life Council, under the auspices of the Division of Student Affairs, has developed this directory. It is the council's hope that the following information will be of value to those seeking affiliation with a particular religious denomination and/or involvement with a religious student organization.

Cru: Campus Crusade for Christ:

Our purpose is to help launch and build movements of spiritual multiplication on college campuses so that everyone will know someone who truly follows Jesus Christ. We believe that a relationship with God through Jesus Christ provides the hope and purpose in life that people are seeking. College students often find themselves in an environment that is tearing away at their moral and spiritual stability. They can feel trapped by the pressures of academic life and the deep need to be accepted by their peers. All of this can add up to a college career filled with anxiety, superficial relationships and fear of the future. Jesus offers today's students something different. In the Bible, Jesus says, "I came that they might have life, and might have it abundantly." (John 10:10). When students begin a relationship with God, they find purpose and meaning, and they experience life the way that God intended.

The Baha’i faith teaches that all religions of the world come from the same God, and that there is only one religion, that being the religion of God. God sends different divine teachers at different times. Each of these divine teachers, otherwise known as prophets, such as Krishna, Moses, Buddha, Christ, and Muhammad, teach that He will return. For Hindus, it is the reincarnation of the Lord Krishna; for Buddhists, the arrival of the
Fifth Buddha; for Christians, the return of Christ; and for Muslims, the coming of the twelfth Imam. Bahu ‘u ‘llah, the manifestation for the Baha’i faith, claims to be the Promised One of all religions.
