Dear WCU parents and families,

Congratulations to your student on becoming a WCU Golden Ram! Let me also take this opportunity to welcome to you the Ram Family!!! We have an engaging community of active parents, guardians, and family members who partner with the University and the Office of Parent and Family Relations to foster and support student success.

WCU is a special place, where we take pride in our services, programs, resources, and offices dedicated to supporting students and families through the successes and challenges that are common throughout the college experience.

While I look forward to partnering with you during your Golden Ram’s journey, please note that I am also in the unique position to also act as the WCU Student Ombuds. In this role, I can work directly with your student when they have questions or concerns about their campus experience.

At WCU, parents and family members are truly valued partners. By “parents and families,” we mean moms and dads (biological, adoptive, and foster), guardians, step-parents, grandparents, siblings, aunts, uncles – anyone who loves, cares, and supports your WCU student. We recognize that it takes a village!

We know that staying informed and being part of your student’s higher education journey is very important. The Office of Parent & Family Relations utilizes our platform called “Ram Fam Central” as our main digital communication tool. On this page, you will find a QR code to use to sign up for this communication tool. This handbook is an additional printed version of just one of our many resources available to you.

Within this handbook, you will find advice for the upcoming transition and an overview of the Office of Parent and Family Relations. You will also find, information related to FERPA, Academic Affairs, Student Affairs, housing, dining, health and wellness, billing, financial aid, and frequently asked questions.

My office should serve as a first-point-of-inquiry for both you and your student. I am here to help with inquiries, concerns, and any needs your student may have. Please feel free to contact me as needed.

Sincerely,

Lisa Montgomery  
Director of Parent & Family Relations & WCU Student Ombuds

Will my student be safe and how are you going to keep them that way?

Every parent and family member asks that question at some point during their student’s time at West Chester University. The Department of Public Safety (DPS) is here to ensure your student is safe AND has the resources to protect themselves as well.

Some DPS facts

West Chester University is proud to have a full-time police department on the same footing as those municipal law enforcement agencies surrounding campus. This enables our Department to be fully attentive to the safety and needs of our students and community members.

- “The lights are always on at Public Safety”. We are a year-round, round the clock operation; we do not “hand-off” policing duties to another agency at a certain time of the day.
- WCU police officers are just that, police officers: Each West Chester University Police Officer has full statutory arrest authority for any violations of state law occurring on campus.
- Operates 1200 cameras across campus: The Department operates cameras both inside and outside all buildings on campus. We are constantly looking at any obstructions that would affect the operability or visibility of each camera.
- One Department, many divisions: the Department of Public Safety has within it four Divisions that affect your student’s time on campus. The Police Division; providing law enforcement on campus, the Security Division; posted at the entrance to residence halls and other campus buildings, Parking Services Division; enforcing parking rules and issuing parking passes, and the Electronic Security Division; administering key card (Ram Card) access to campus buildings.
THE WCU SAFE APP

Available for download on Apple or Android devices, this is West Chester’s official safety app.

Some features include:

- **Virtual WalkHome**: Allow Campus Security to monitor a user’s walk. If a user feels unsafe when walking on campus, they can request a Virtual WalkHome and the dispatcher in Public Safety will monitor their journey until they reach their destination.

- **Public Safety Escort**: This walking escort service is provided to students, faculty, and staff from one on-campus location to another.

- **Panic Button / Mobile Bluelight**: Send your location to WCU security in real-time in case of a crisis.

- **Safety Notifications**: Receive instant notifications and instructions from WCU DPS when on-campus emergencies occur.

Mission

West Chester University’s Office of Parent and Family Relations supports the mission and vision of the University and the Division of Student Affairs by recognizing our WCU community of educators includes parents and families, as we share a common goal of fostering student learning, development, and success.

The Office of Parent and Family Relations is committed to building lasting collaborative partnerships with parents and families by providing intentional information and meaningful engagement opportunities to ensure that students are supported in their personal and professional success.

Values

West Chester University’s Office of Parent and Family Relations believes:

1. All parents and families should have access to accurate and timely information about WCU’s services, programs, and opportunities, particularly those that contribute to student success.

2. Parents and family members provide invaluable expertise, wisdom, and referral power that can harnessed to support and further University, Division, and department goals.

3. Intentional partnerships with parents and families strengthen and enhance the student experience and are integral to fostering student success, retention, and a lasting affinity to the institution.
What is a Student Ombuds?
The Student Ombuds (Dr. Lisa Montgomery) is a resource that all students at West Chester University can utilize for assistance with questions and concerns. The Student Ombuds offers informal dispute resolution services, provides resources and referrals, and helps students consider options available to them to resolve matters related to their student experience at WCU.

Why would a student meet or contact the Ombuds?
During the course of an academic year, there are questions or concerns that arise for our students, and they may not be certain of exactly who to contact to follow up or get answers to their questions. Instead of spending their time contacting various offices/staff members who may or may not be able to help them, students may contact the Ombuds. The Ombuds is a professional staff member that serves as a student’s point of contact who will provide them with the exact person/department to call/meet with to resolve their concern(s). The Student Ombuds can also be a sounding board for students who may need to talk about an issue they may be having and some ways they can advocate for themselves to resolve the concern.

What should a student expect when contacting the Student Ombuds by phone?
Students should call 610-436-3356 and can expect their feedback and/or concerns to be heard. The Student Ombuds will follow up with students directly to provide next steps for each situation as requested.

What if a student would like to meet with the Student Ombuds?
Students are welcomed and encouraged to meet with Dr. Montgomery. Please call to request an appointment. During any meeting, students can anticipate:

1. Privacy: Conversations will be held in the privacy of the Student Ombuds office and are not shared with anyone unless there is a legal obligation that requires disclosure of the discussion.*
2. Neutrality: The Student Ombuds Office will not take ANY sides in a conflict, dispute, or issue. The office operates impartially, seeking to provide a fair and equitable process.
3. Informality: The use of the Student Ombuds Office is voluntary.

Student Testimonial
"Thank you so much for everything you did, I felt so prepared because of you and I can’t thank you enough! It was a pleasure meeting you, and I hope we can cross paths again in the future."
**Family Orientation**
In conjunction with Orientation held each term to welcome new and transfer students, New Student Programs also offers a Family Orientation. During orientation, students are placed into small groups according to their major, while families attend a separate schedule more tailored to their questions and needs. The family and guest program is a mix of roundtable discussions and smaller sessions that one can choose to attend based on interest. This program also offers opportunities for parents, family members, and guests to have their questions answered.

**Newsletter Communication**
**Ram Fam Central** – Be sure to sign up for Ram Fam Central which is a digital platform used to provide families with upcoming events, important dates, and other information regarding students. Families can customize the frequency with which they receive the newsletter and can also select from an array of communities of which they wish to belong. The more families customize their Ram Fam Central communities, the more information you will receive that is specific to your need-to-know information.

**Ram Fam Advisory Council**
There is a small group of families that meet with the Director of Parent & Family Relations periodically to discuss family concerns and feedback. Be on the lookout for information about nominating yourself to be a part of the council!

**Ongoing Initiatives**
The Office of Parent and Family Relations is continuously adding new programs and creating new partnerships.

The office also works with individual campus departments to develop and update parent and family-specific materials to best meet the needs of our Golden Ram Family.

**Family Weekend**
This fall, West Chester University will be combining Family Weekend with Homecoming! Parents, siblings, grandparents, and guests will have the opportunity to enjoy WCU’s campus, get to know the Golden Ram community, and spend quality time together at all of the planned festivities.

Events include planetarium shows, art exhibits, athletic events, campus history tours, food trucks, a Ram Fam brunch, and other family-centered on and off campus engagement opportunities.
SETTING EXPECTATIONS

It is important to set expectations with your student each semester. This helps to proactively prevent any confusion. Key areas that are important to discuss are grades, schedule course load, and involvement opportunities. When setting expectations, keep the following things in mind:

Be realistic. If your student was a B student in high school, it is not likely they will earn a 4.0 each semester – especially their first semester.

Be adventurous. This is important when thinking of extracurricular activities. WCU has over 280 student organizations; encourage your student to try something new!

Be consistent. Get in the routine of setting expectations each semester. This should become a consistent process for you and your student.

“How are you going to handle that?”

Rather than solving the problem for your student, it is important to ask questions that are supportive and to encourage them to find a solution. A great thing to say is, “How are you going to handle that?”

Through asking this open-ended question, your student is encouraged to have an open dialogue with you to discuss options of how to solve the situation. Your student will grow from learning how to handle problems on their own.
Communication Timeline
At certain points in the year, there will be issues on the forefront of your student’s mind. August is all about transition. Whether your student is a first year or senior, each year is a new one, and everyone gets the chance to start over with a new academic year. November is a big month on campus. Your student may be getting burned out and/or feeling somewhat overwhelmed because that is the time when the process for scheduling courses for the next semester begins and when some discussions or action items need to be had or completed regarding living arrangements for the next academic year. Be sure to check in with your student on how they are handling these tasks and about how they are preparing for final exams.

“I love you; Go to Class”
This one is simple. End every conversation with, “I love you; go to class.” One of the key factors of student success is whether or not they are regularly attending class. This simple phrase serves as a gentle reminder of the importance of attending class. It may sound silly, but each year we have parents let us know that they use this little trick, and it makes a huge difference.

First Semester Best Practices
• Continue to articulate your love and support — ask about classes and their social lives, not just grades.
• Revisit your expectations conversation. Consider if some parameters need to be adjusted.
• When an issue arises and you get “that phone call,” encourage your student to problem-solve and resist the urge to step in immediately.
• Avoid “helicoptering” — be a coach and encourage your student to use resources available to them on campus. Encourage your student to get involved, but not to overextend themselves.
• If your student is living in the residence hall, do not allow them to come home within the first weekends. Continue to pay attention to changes in behavior and refer to professional counseling if necessary.

Summer-Before Tips for Families
• Let your student know that it is natural to have doubts and be unsure about academics or adapting to a new social environment. Express your trust in their ability to make the right choices.
• Don’t overreact to mood changes.
• You know your student best: If something seems truly off, seek the help of professionals. Counseling may help your student manage this major change.
• Focus on important matters: discuss realistic, adventurous, and consistent expectations.
• Guide, don’t direct. Ask your student probing questions. When they own their decisions, they will grow and develop.
FERPA SIMPLIFIED
The Family Educational Rights and Privacy Act (FERPA) of 1974 is a federal law that requires colleges and universities to protect the confidentiality of student education records.

West Chester University is committed to protecting the privacy of its students and to maintaining the confidentiality of student education records in accordance with the Family Educational Rights and Privacy Act of 1974 (FERPA).

Students at WCU are afforded the following rights regarding their educational records:

1. The right to inspect and review their educational records within 45 days from the date the University receives the student’s request for access.

2. The right to request an amendment to their educational records, if he or she believes the record contains inaccurate information.

3. The right to provide consent prior the disclosure of personally identifiable information contained in their education record.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by WCU to comply with FERPA.

*For more information, visit wcupa.edu/registrar/privacy

STUDENT RECORDS: THE PARENT PORTAL
Students can use the Parent Portal to share pieces of their WCU record with parents and others. Permission to view student information is fully controlled by the student. The student is the only person who can grant others access to view their information. Students have full discretion over what pieces of information they make available to others and have the ability to remove access at any time.

Through the Parent Portal, students currently have access to choose which of the following pieces of information are shared with others: Course history, end-of-term grades, addresses, class schedule, Financial Aid awards, and Financial Aid alerts.

Students wishing to share their information with others can elect to do so through myWCU. Student should login to myWCU and click on the Parent Portal link under Resource Links.
ACADEMIC DISHONESTY

Academic dishonesty is prohibited and violations may result in disciplinary action up to and including expulsion from the University.

Academic dishonesty as it applies to students includes but is not limited to academic cheating; plagiarism; the sale, purchase, or exchange of term papers or research papers; using books or other materials without authorization while taking examinations; taking an examination for another person, or allowing another person to take an examination in one’s place; copying from another’s paper during an examination or allowing another person to copy from one’s own; falsification of information which includes any form of providing false or misleading information, written, electronic, or oral; or of altering or falsifying official institutional records.

Plagiarism is defined as copying another’s work or portions thereof and/or using ideas and concepts of another and presenting them as one’s own without giving proper credit to the source.

NOTE: The Student Code of Conduct covers theft or attempted theft of property and/or services; destruction; vandalism; misuse or abuse of the real or personal property of the University, any organization, or any individual.

**OVERVIEW**

The General Education curriculum includes critical components recommended by the General Education Advisory Board informed by feedback received from the University Community over the past few years, including:

- A first year course, with a significant content shared across all programs
- A universal use of Electronic Portfolios to facilitate students’ thinking across their Gen Ed and Major courses
- A universal implementation of capstone courses in the majors, with a requirement that students synthesize their entire undergraduate career (Gen Ed, major, minor, and co-curricular work)
- Development and implementation of pathways utilizing existing Gen Ed requirements which can lead to transcriptable certificates

**E-PORTFOLIO PROGRAM**

We will encourage the use of an electronic portfolio in all General Education courses.

The First Year Experience will introduce the e-portfolio as a way for students to collect their work; to work on developing their personal and professional identities online; to review their work for synthesis; and, in the capstone course, to generate an integrated overview of their career, including both Major and General Education courses. The capstone assignment does not have to be a graded component of the course, but may be; it must be a requirement of the course.

All Academic Foundations, Distributive, Interdisciplinary, Diverse Communities, and Writing Emphasis courses should try to incorporate the electronic portfolio in a way that encourages integration of student learning across courses.

By Year 5 of the new General Education program, we would like to have 100% participation across all General Education courses.
Student Standing
A student’s standing is determined by the number of semester hours of credit earned as follows:

- First-year: 0 - 29.5 hours
- Sophomore: 30 - 59.5 hours
- Junior: 60 - 89.5 hours
- Senior: 90 or more hours

Academic Load
Academic (or course) load refers to the number of credits taken by a student each semester. It is used to determine full- or less-than-full-time status and may change throughout a student’s academic career.

Students may change their academic load through the myW-CU portal; consideration should be given to the impact it may have on financial aid, housing, and other credit-dependent services. Undergraduate academic loads for fall and spring are broken down as follows:

- Less than 1/2 Time: 5.50 hrs. or less
- 1/2 Time: 6.00 - 8.50 hrs.
- 3/4 Time: 9:00 - 11.50 hrs.
- Full-Time: 12.00 - 18.00 hrs.
- Full-Time w/ Overload: >18.00 hrs.

Relevant Academic Policies and Procedures
First-Year Student Scheduling and Placement Exercises
In an effort to assist students in choosing the correct courses for their major and for timely progression to graduation, West Chester University creates a first semester schedule for all first-time, first-year students. Schedule prototypes are created by department faculty and reflect a combination of general education and major courses.

All students are required to take the Mathematics Placement Exam and the WRITE Survey prior to New Student Orientation.
Some students (all B.A. candidates and Exploratory Studies/Undeclared students) are required to take the Second Language Placement Exam. Results from these placement exams/surveys and other specific student information, including Dual Enrollment and AP courses (if known), are taken into account when creating a student schedule. Students may adjust their schedules one week prior to the beginning of the semester but are encouraged to seek the advice of their advisor or department chair.

Dining Overview
Dining plans are available to students living off campus, resident students and our faculty and staff.

All students residing in a north campus residence hall (Tyson, Goshen, Killinger, Schmidt, Allegheny, Commonwealth, University, and Brandywine) are required to have a meal plan as a condition of occupancy. For 2023-2024 students residing in University apartments will not require a meal plan but do have the option of obtaining one. Students with special dietary needs must meet with our on-site, dedicated Campus Dietitian for Collegiate Hospitality to discuss/develop a personalized menu and or to determine if needs can be accommodated.

Rollover Programs
Flex Rollover: Any unused flex does roll over from semester to semester AND year to year. However, any flex remaining on a student’s account will be forfeited upon graduation or if the meal plan holder leaves the University.

Meal Rollover: Any unused meals will rollover from week to week, but meals DO NOT carry over unused meals remaining on the student’s account at the end of the semester will be forfeited.

Wellness Promotion
The Office of Wellness Promotion engages students in opportunities to cultivate sustainable skills in health and well-being through providing a variety of educational programs and early intervention services that include individualized sessions with staff, educational workshops, as well as campus events. Programming is offered, often through peer-to-
peer delivery, on a variety of interconnected themes to help students understand what health and wellness mean to them and how to find community with other Golden Rams. Studies have indicated that individuals develop their foundation of well-being in college, and we are here to help students along their journey.

Sometimes making decisions about health and wellness can be challenging for students. Through wellness coaching, students can engage in private conversations with a trained coach on our staff who will empower students to explore topics including sleep, stress, social connections, and substance use. Coaching is short-term and action-oriented to help students identify their strengths and personal motivations, set attainable and action-oriented goals, and work towards their health and well-being vision using sustainable strategies in a supportive environment.

A variety of informal opportunities also exist for students to learn about their health and wellness including our Stall Seat restroom newsletter, our Ram Box subscription service connecting students to free resources and personal health supplies, our What’s Happening in Wellness newsletter, and more! Our programming information is available on RamConnect, updated information is on our website: www.wcupa.edu/wellness, and a lot of good educational materials are distributed through our social media pages (www.facebook.com/WCUWellness; @WCUWellnessPromotion).
