STUDENT: I tested positive for COVID-19 and am isolating off campus. How do I keep up with my courses?

Fill out the WCU COVID-19 Notification form. Click Here.

YES

Are you symptomatic to the point you cannot do schoolwork?

Stay home, isolate, and rest up. Consult your physician.

Return to class once you have been directed by your Medical Provider.

The Health & Wellness team member will issue an excused absence for three consecutive absences for the same illness.

Health & Wellness will forward the letter to your faculty.

NO

Contact your individual professors to find out how they want you to keep up with coursework.

Return from isolation if: You are fever-free for 24 hours without medication, You have improved symptoms, it is 5 days since your symptoms (symptomatic)/test (asymtomatic).

Wear a well-fitted mask through day 10.
A student in my course reports a positive case of COVID-19. What do I do now?

**FACULTY**

Decide best way to continue instruction for isolating student

- Zoom student in using classroom tech
- Record or otherwise post class presentations
- Meet with student to develop alternative plan

**STUDENT**

Student must isolate at their primary place of residence.

Fill out WCU COVID-19 Notification form. [Click Here.]

Follow guidance provided by the Health & Wellness team member regarding return to class.

What about me? Was I exposed? Do I quarantine? See next page for the Faculty Exposure flowchart.
I was exposed to someone who is positive for COVID-19.

What do I do to protect myself and those I come into contact with?

According to the [CDC](https://www.cdc.gov) you no longer need to quarantine for exposure to COVID-19.

However, wear a high-quality mask (N95) as soon as you find out you were exposed starting from day 1. Day 1 is the first full day after exposure through day 10.

Get tested at least 5 full days after your last exposure.
