Student Achievement

The BUEP program aims to prepare students to succeed as entry-level positions in planning and planning-related disciplines. Students in the program will gain the planning-related knowledge, skills, and values, supported by a strong liberal arts education, necessary to assume leadership roles to help communities foster sustainable, equitable, and healthy places. Student achievement is measured with a variety of methods, including a formal learning assessment, exit survey, and the quality of studio and other work products.
