

## GETTING STARTED WITH HYFLEX

1. Start System by tapping Crestron panel at the podium.
2. Choose HDMI
3. Plug in HDMI cable
4. Plug in blue USB cable labeled Hyflex to your laptop
5. Launch Zoom session

## CAMERA SETUP FOR ZOOM

- Microphone setup:
  - Select **Join with computer audio**.
  - Once the Zoom session has started check audio settings:
    - Click the up arrow next to the microphone icon > Select the microphone labelled **Devio SCR USB Audio**.
    - Select the speaker labelled **HDMI Crestron** to connect to the room presentation system.
- Camera setup:
  - In Zoom, click on the up arrow next to the video/camera icon.
  - Select the camera labelled **CV610-UB USB 2.0 Camera**.
  - Use the remote attached to the instructor's station to adjust camera focus if necessary.

## CAMERA REMOTE

- The numbers **1, 2, & 3** on the keypad are programmed with video presets.
  - **1:** Focuses on the PODIUM
  - **2:** Focuses on the WHITEBOARD
  - **3:** Zooms out
- Adjust the positioning with **pan, tilt, zoom, or focus**.
