

Connecting to RamCast for Students

SHARING FROM THE APP

- Download the Solstice app from [the Solstice website](#) and follow the installation directions.
- Launch the Solstice app.
- Enter your display name when prompted.
- *Connect to a Display Screen* appears. Tip: All rooms across campus will be displayed alphabetically. To jump to your location, type in the search bar the building name displayed on the wall monitor > scroll down to your room number.
- Enter the session key from the wall monitor.
- Select the window or screen you would like to share.

SHARING MULTIPLE SCREENS

Multiple people can connect to the same screen. You can share side-by-side or one at a time.

- When you connect, in your Solstice app window go to the *Layout* tab.
- Drag your display to the left side waiting area until it is your turn to present.
- When it is your turn, you can drag your display to the sharing area.

TO STOP SHARING

- Select *Stop Sharing* in the top-middle of your screen on the Solstice sharing bar.
- Select *Disconnect* in the Solstice app window.

SHARING FROM A CHROMEBOOK

- Activate system and choose Ramcast on panel.
- Type the numeric portion of the IP address found on the screen after [http://](#) into your Chromebook browser bar and tap enter.
- If you see a security warning in your browser, follow the option to proceed to the URL. This may appear under **Advanced** in some browsers.
- Enter the screen key displayed on the Solstice board and click launch
- Choose the sharing option you prefer, entire screen, application window or browser tab.
- Click to **Share** or **Allow** to share the selected content to the Solstice display.
