**Important Note:** This form is completed by the student, the Undergraduate Advisor and the MPH Advisor during the advising period for course registration for senior year. Students should bring this form with a current transcript to the advising sessions. The student will schedule an advising appointment with their Undergraduate Advisor followed by an appointment with the MPH Advisor. The MPH Advisor will keep this form and review student transcripts at the end of the current semester to ensure that the 90 credit and 3.0 GPA requirements have been met by the student. Students who do not obtain the required 90 credits and the 3.0 GPA will be dropped from the graduate courses. These students will need to schedule replacement undergraduate courses.

**Time Extension to Complete the Degree and Time Requirements for Waived Courses:** Students have the option of extending the time needed to complete the degree. Students who need to extend their time for degree completion will need to meet with their advisors to work on alternative course schedules. Students who need a time extension should be aware of the time requirements for waived courses. For the (2) 400 level health courses and the (2) graduate courses to be waived as requirements for the MPH degree, all students will need to finish the MPH Degree within six years of completion of the (2) 400 level health courses and (2) graduate courses. If the time to complete the MPH Degree Program extends beyond the six years, this will result in forfeiture of waived courses for the MPH Degree. Students in this situation will have the option to complete the degree (with approved extension for degree completion) but will need to replace the (2) 400 level courses with graduate elective courses selected under advisement. The students will need to repeat the (2) graduate courses taken during senior year.
