CONTENT IN D2L

To access, click on the Content in the course navigation bar.

Navigating through Content

Content is where you can view and navigate through course materials and activities that your instructor has posted.

- If your instructor has created a Course Overview, you may see this when you first log in.

- You will access the course materials underneath Table of Contents by clicking on the course module headings (ex. Chapter 1).

- The number beside each module tells you how many incomplete items there are within it. If there is a checkmark, all topics within the module are complete.
Click on a Module name to show the topics within it. A list of topics will be displayed on the right hand panel.

- A check mark to the right of a topic indicates that the topic has been completed. A small dot indicates that the topic has not yet been completed.
- An overview of your progress is shown above the list of topics. In the screenshot above, notice that the student has completed 66.67% of the topics in the Chapter 1 module.
- To view a topic, click on the topic name.
- You can Bookmark the Topic page by clicking on the Bookmark icon on the top right of the screen.

- Move between topics by clicking on the arrows on the top right of the screen.
- You can easily return to the Table of Contents by clicking on the tab on the left of the screen.
• Click on a topic in the panel to jump to a new topic.

• The arrow buttons on the top of the panel will let you navigate to other modules.

• You can easily navigate back to the Content area by clicking on in the panel above or by following the breadcrumbs at the top of the screen.
