Managing Browser Add-Ons in Windows Vista For Internet Explorer 8:

To view and/or delete the small tools or programs that have been added to your Internet Explorer browser and are causing problems with your PeopleSoft usage (examples: Weather Bug, Google Toolbar, Yahoo Toolbar) you can follow these steps:

1. Open Internet Explorer
2. Select Tools, then Internet Options
3. Click on the “Programs” tab at the top
4. Select the “Manage add-ons” button located in the center of the dialog box
5. The list of add-ons will appear in a new window.
6. To disable an add-on, select from the list so that the program is highlighted, then click the “Disable” button located at the bottom of the dialog box.
